Hon. John S. Barbour, of Virginia, who was interviewed in New York recently by the *World*, said: "I have been abroad for several months and have no personal knowledge of the causes that led to the Republican victory in our State. From what I have heard I should say it was due as much to the indifference of the Democrats as anything else. They did not turn out to vote. The policy of the Administration has been discouraging to the Democratic party. When men turn out and work for the success of their party, they like to receive some recognition if they win, or to have their friends recognized, and not have things go on as they were before. That's human nature, and you cannot change it. Sentimental politics may be all right in theory, but they do not win victories or inspire men with much enthusiasm. President Cleveland is probably sincere in his course, but if he would give us a little more practical politics it would be better for his party."

LAW AND ORDER LEAGUE.

A Call for the Fifth Annual Convention Issued.

Boston, November 10.—The following call will be issued to-day: "The fifth annual convention of the Citizen's Law and Order League, of the United States, will be held at Albany, N. Y., on the 20th, 21st, and 22d days of February, 1887. Details of the local arrangements will be in charge of a committee of the Albany league, consisting of William Barnes, David A. Thompson, John A. McNamara, Albert N. Huestead and J. Townsend Lansing. All State and local leagues and kindred societies in the United States are requested to send delegates and all persons interested are invited to attend the meetings. State and local leagues are requested, when convenient, to hold meetings on one of the days named and interchange telegrams with the national meeting at Albany. Clergymen throughout the country are requested to set apart one service on Sunday, the 21st, to the consideration of the subject of the enforcement of the laws intended to promote the morality and welfare of the people. The broad and all-important principle of the league is the enforcement of the laws. Its specific work is to maintain the doctrine that the enforcement of law is essential to good government, and by promoting the formation of State and local leagues having the same object in view, to secure in all proper ways the enforcement of the existing laws relating to the liquor traffic and all offences against the morals and peace and good order of society."

Thoebe Or Not Thoebe.

CINCINNATI, OHIO, November 10.—Thoebe, Speaker Carlisle's opponent for Congress, announces his intention of contesting the election. "You have genuine evidence of fraud," he was asked. "We certainly have," he replied. "In Carroll and Trimble counties alone we can throw off about 600 votes and add at least fifty to my own. All day Wednesday and Wednesday night we could get no returns from those very counties that are always to be relied on, especially when the news was all favorable, as it has been to Mr. Carlisle heretofore. This delay was suspicious. My representative arrived in Bedford, Trimble county, Thursday night, and found to his surprise that the count had taken place that day. The law says that the official count shall be held on Friday. We can throw that county out. In Carroll county the count was also irregular." Mr. Thoebe went on in the same train to give the details of frauds in six different counties.

Each applicant was asked a series of questions as to his age, nativity, and experience in the business, and those who seemed most robust were accepted. At 7:30 o'clock last night 312 men left for Chicago.

I Told You So.

WICHITA, KANSAS, November 10.—Speaker Carlisle last evening denied the truth of the report that he intended to resign and thus force a new election if his opponent (Thoebe) made out a plausible case. He denounced the report as malicious and without foundation in fact. He said that there were no grounds on which a contest could be based. In regard to the Speakership he declared that his candidacy rested entirely with the wishes of his friends.

Another Daniel.

INDIANAPOLIS, IND., November 10.—The Mayor yesterday refused to fine 12 men who were arrested Sunday for being drunk, holding that as long as the police allowed the rum-shops to be open on Sunday, the keepers, and not their victims were the guilty parties.

New York Stock Market.

REVIEW.
NEW YORK, November 10.—To-day has been account day in London, and naturally there have been few foreign orders in the market. From our own advices we learn that rates on American securities were considerably easier than they were for the last account, and it is probable that, most of the weak holders having been weeded out, a better class of buying will prevail, and the way in which our home market has taken the stocks sold for European account should help to demonstrate the fact that we are no longer wholly dependent on their support, but that our own people are able and willing to buy all such securities which afford a good rate of interest or which have a prospect of sharing in the improved condition of business generally. The market closed strong. Money, 6 per cent. P. & W.

The wheat market has weakened quite perceptibly, and closed at inside figures. The opinion that it was not in the hands of the proper parties to bull it successfully has been gradually gaining ground, and the result was a marked pressure to realize.

The foreign news was pacific, Lord Salisbury's speech last night being construed to mean that a rupture was improbable; and with foreign grain markets showing no improvement, the outlook is a weak one, and lower prices seem inevitable.

Corn was also easier. The Government report showing quite a decided increase over former estimates, and this caused considerable unloading.

Provisions easier, but very dull, and hardly enough trade to establish quotations.
